8. Drug Use Policy re employees - project change (or lack of) in this policy over next five years. Were any of 35 summer employees in 1973 who admitted to drug usage part of the ~~same~~ group of 35 who admitted to drug usage in 1972 interviews?

9. We would like estimates of resources required for each objective where possible.

10. Security's continuing role re doctrine on protection against terrorists attacks or kidnapping overseas. Status to date.

25X1 12. Safety Program - OS says it could use at least 4 more professional safety officers (e.g., Hqs. Safety Support, Accident Investigation, and Overseas safety program).  
Should OS budget for these four positions as contract employees in FY 1975? Are safety Staff recommendations being carried out? If not, due to lack of funds or lack of interest? How serious (in terms of risks) are safety problems in the Agency - overseas vs. U.S.? Should this be a Management Committee discussion item?
